

Southside BMX Club

ROLES AND RESPONSIBILITIES

Track Manager

Track Manager is required to:

- Ensure that the track is in a safe condition for racing at all race meetings and to inspect the track prior to each race meeting;
- To ensure that all track equipment is in place prior to each race meeting;
- To return all stores and track equipment to their normal storage location at the end of each race meeting;
- Ensure all track officials are in their respective positions prior to the commencement of racing and that they carry out their duties as laid down in the club rules;
- In the event of inclement weather, decide whether the days racing is to be cancelled. Four hours before the start time to be the limit;
- To maintain and upgrade or redesign the track in consultation with the committee;
- Ensure all equipment used for the purpose of the track or any other equipment relating to the track is in good working order; and
- Write and present a report for the season at the AGM.

The track manager is responsible for:

- The track;
- The staging area;
- The repair area;
- The inner track area; and
- The starting ramp.
